We would like to invite artworks, papers, posters, presentations, performances, activities for the Forum to be hosted by

Department of Visual Arts (UP)

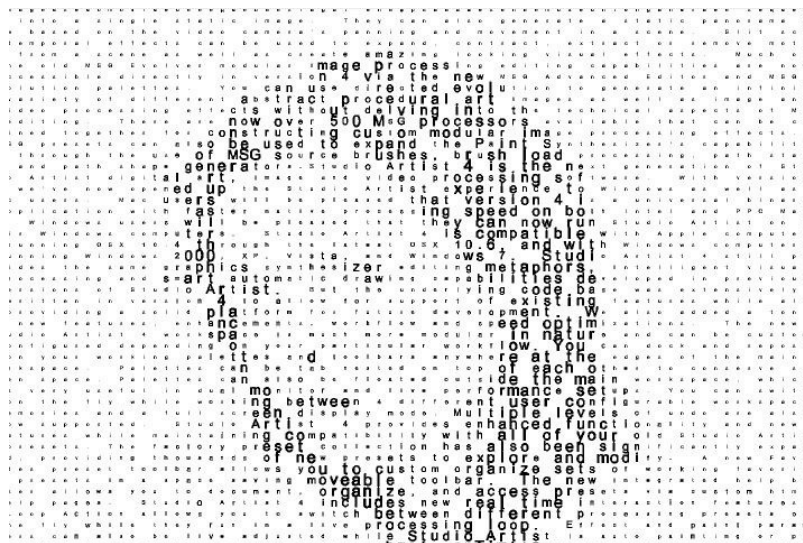

24 July 2015

at

the Van Wouw house

under the rubric of

imagetext

Taking our cue from WJT Mitchell's concept imagetext we want to explore the complex, intermedial, multimodal exchange between image/text and text/image. The following topics may be creatively addressed but are not exclusive:

How are **images** translated into *text*?

How is *text* **imaged**/imagined?

What is the interface between **image** and *text/text* and **image**?

How do image and text/ text and image relate?

How are the boundaries established, structured and maintained between **image** and text?

Participation may include but are not limited to the following:

- Art works
- Performances
- Papers (short 10 minutes and longer 20 minutes)
- Posters
- Flash Presentations (5 minutes)
- Interventions

- Recitals (poetic, musical)
- Demonstrations
- Video presentations

Please send proposals and abstracts for participation to Prof Amanda du Preez and Dr Johan Thom at imagetext2015@gmail.com before or on **7 July 2015**. Please also include a technical list of requirements with your proposal (including wall or floor space requirements, digital equipment list and so forth).
